

AUTOMAZIONI INDUSTRIALI CAPITANIO SRL

INNOVATORS IN TAILORED AUTOMATION FOR THE METAL INDUSTRY

The Company

Automazioni Industriali Capitanio (AIC) stands as a distinguished technological partner in the global market, renowned for its comprehensive expertise and deep knowledge in automation.

As a leading power control supplier and system integrator, AIC specializes in designing, manufacturing, and implementing bespoke automation systems, process control solutions, and mechatronic innovations. Their expertise highlights their capability to address and optimize a wide range of industrial processes within the steel and metals sector.

The Challenge

Our primary challenge prior to working with Peer Software was the difficulty in synchronizing data across our geographically dispersed locations.

This issue was a major obstacle in achieving operational efficiency. Peer Software's solutions enabled us to overcome this barrier by ensuring seamless and reliable data synchronization across all our sites. Implementing Peer Software's solutions allowed us to establish consistent data management and sharing, significantly improving our operational management.

Project Profile

PEER SOFTWARE SOLUTION

- ▶ PeerGFS™

CUSTOMER PLATFORM(S)

- ▶ Microsoft Windows

LOCATIONS

- ▶ 150 Locations

INDUSTRY

- ▶ Industrial Automation

APPLICATIONS

- ▶ Autodesk AutoCAD
- ▶ Autodesk Inventor
- ▶ Microsoft Office
- ▶ Adobe Creative Suite

Solution

Peer Software's solution targeted our data synchronization challenges by implementing PeerGFS on two servers located in different geographical areas.

This configuration allowed for synchronized data operations, reducing latency and improving the efficiency of data access and collaboration among our teams, thereby meeting our specific requirements and prerequisites.

Results

Following the implementation of Peer Software's solution, our company observed significant enhancements in operational efficiency.

These improvements were manifested in faster data processing times, increased team productivity, and streamlined collaboration across various locations.

Benefits

FAST FILE ACCESS

Improve Productivity for distributed teams by enabling fast local access to shared project files.

CROSS PLATFORM

Replicate Data between the Storage Systems which best meet specific application / business requirements.

FILE LOCKING

Enable fast, local access to shared file data without the risk of version conflicts

NO VENDOR LOCK-IN

Non-proprietary, software-based solution supports native file and object formats.

ABOUT US

Since 1993, Peer Software has developed data management solutions that address unique challenges related to data synchronization, backup, and file collaboration in multi-site (WAN) environments.
