

CSC BANK SAL

PEERGFS FOR ENTERPRISE FILE COLLABORATION

The Company

CSC was incorporated with the specific intention of servicing the card needs of banks in an efficient, dedicated, and cost effective manner.

CSC offers financial institutions a complete turnkey solution that spans the entire electronic payment business spectrum: from card issuing to merchant acquiring to ATM and counter cash dispensing to mobile payment. We have over 20 years of experience, and currently employ around 350 dedicated employees, and use state of art technology.

CSC is today considered a regional leader in the card and electronic payment processing industry, with a branch network and operations in 30 countries in the Middle East, Africa and Europe.

The Challenge

CSCBank required a way to replicate files between Data Centers using Windows DFS file sharing and file locking, to avoid file version problems and a solution to replicate files between non trusted domain servers.

Project Profile

PEER SOFTWARE SOLUTION

- ▶ PeerGFS

CUSTOMER'S PLATFORM(S)

- ▶ Microsoft, DellEMC, OnPrem Object

LOCATIONS

- ▶ Lebanon + Cyprus

INDUSTRY

- ▶ Finance

APPLICATIONS

- ▶ Microsoft Office

Solution

Their research led them to PeerGFS from Peer Software.

PeerGFS' features, such as cross-platform integration, global file locking, and real-time replication was exactly what they were looking for.

Results

By implementing PeerGFS on Windows Cluster DFS File Sharing, they are able to replicate files between Data Centers without having file conflicts thanks to PeerGFS' file collaboration feature.

In addition, they were able to solve another issue by replicating SFTP non-joined domain servers between data centers.

“
Past problems have finally been solved with PeerGFS.
Nadar H., IT-Systems
”

Benefits

FAST FILE ACCESS

Improve Productivity for distributed teams by enabling fast local access to shared project files.

CROSS PLATFORM

Replicate Data between the Storage Systems which best meet specific application / business requirements.

FILE LOCKING

Enable fast, local access to shared file data without the risk of version conflicts

NO VENDOR LOCK-IN

Non-proprietary, software-based solution supports native file and object formats.

ABOUT US

Since 1993, Peer Software has developed data management solutions that address unique challenges related to data synchronization, backup, and file collaboration in multi-site (WAN) environments.
