PEER™

DREßLER BAU GMBH

BUILDING DNA - CONCRETE IN THE BLOOD

The Company

The passion for construction and concrete runs in the blood of this family-owned company from Aschaffenburg, Germany in the beautiful Bavarian region.
What began in 1913 as a small bricklaying business, is now a large general contractor for turnkey construction, as well as a specialist for high-quality architectural concrete facades.

The fourth generation of the family is now proudly at the helm of Dreßler Bau.

The Challenge

Large CAD files that are created at the CAD workstations in the branches needed to also be available in the datacenter at the company's headquarters in Aschaffenburg.

> " We had been looking for a way to easily, quickly, and permanently synchronize our large CAD files with our datacenter, and thanks to PeerGFS, this is now a reality. "
>
> *Jochen Marquardt,*

Project Profile

PEER SOFTWARE SOLUTION

▶ PeerGFS™

CUSTOMER'S PLATFORM(S)

▶ NetApp

LOCATIONS

▶ 6 Offices

INDUSTRY

▶ Construction

**APPLICATIONS**

▶ Autodesk AutoCAD
▶ AutoDesk Revit

Solution

Market research and comparison showed that PeerGFS from Peer Software was the perfect solution.

▶ PeerGFS integrated seamlessly into the storage architecture.

▶ Data from the branches are now kept in-sync with the central data storage.

Results

▶ Having a local copy of the files at each location meant that access times were significantly reduced for the users.

▶ PeerGFS was non-disruptive, easy to implement and provided a consistent data set across each storage location.

Benefits

FAST FILE ACCESS
Improved productivity for distributed teams, by enabling fast local access to shared project files.

CROSS-PLATFORM
Synchronize data between different storage systems, that best meet the specific application/enterprise requirements at each site.

FILE ACCESS
Fast, local access to shared files, without the risk of version conflicts or user's work being accidentally overwritten by a remote user.

ZERO VENDOR LOCK-IN
Non-proprietary, software-based solution. Supports native file and object formats.

ABOUT US

Since 1993, Peer Software has developed data management solutions that address unique challenges related to data synchronization, backup, and file collaboration in multi-site (WAN) environments.
