PEER

HBH PROJEKT

YOUR PARTNERS IN CIVIL ENGINEERING AND
PROJECT CONSULTATION

The Company

HBH Projekt is an experienced supplier of project
documentation and a complete range of consulting
services in the preparation, construction and
maintenance of civil structures.

Our best industry experts with hundreds of completed
projects and our ability to deliver the most suitable team
according to the needs and requirements of the client
enable us to achieve excellent results even in the most
complicated and extensive projects.
We are multi-disciplinary engineering and consultancy
company with broad range of experience in development of
transport infrastructure.

The Challenge

Before collaborating with Peer Software, our company
faced several operational challenges, including slow
work processes, inadequate file storage, and low
work productivity.

We struggled with frequent downtime, unreliable data
storage, and inefficient cross-site file access. Peer Software's
solutions enabled us to enhance data storage reliability,
implement a scalable file system, and facilitate real-time
access to large files, significantly improving our operational
efficiency

Project Profile

PEER SOFTWARE SOLUTION

▶ PeerGFS™

CUSTOMER PLATFORM(S)

▶ Microsoft Windows

LOCATIONS
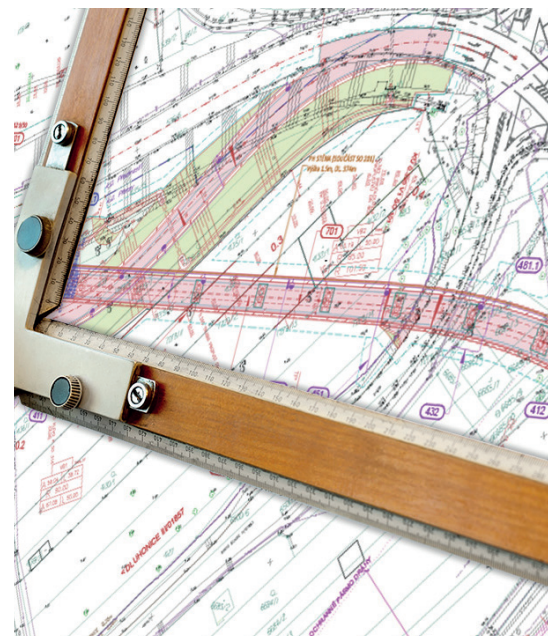

▶ 5 Locations across Czech Republic
  and Slovakia

INDUSTRY

▶ Design and Consulting

APPLICATIONS

▶ Autodesk AutoCAD
▶ Autodesk Civil 3D
▶ Microsoft Office

Solution

Peer Software's solution was strategically deployed across our organization, utilizing MS Windows servers with Lenovo hardware for optimal performance and disk capacity, supported by VMware virtualization.

With PeerGFS clients installed at each location and a dedicated Peer Manager server at headquarters, our data replication processes were streamlined. By also upgrading our internet infrastructure to support real-time replication, the solution directly tackled the issues of data accessibility and system reliability we faced.
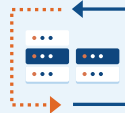

Results

▶ **Operational Efficiency Improvement:**
- Significant reduction in system downtime
- Decreased data replication times
- Overall increase in productivity

▶ **Data Management and Replication Enhancements:**
- Faster access to large files.
- Enhanced work productivity and data storage reliability.

Benefits

FAST FILE ACCESS

Improve Productivity for distributed teams by enabling fast local access to shared project files.

CROSS PLATFORM

Replicate Data between the Storage Systems which best meet specific application / business requirements.

FILE LOCKING

Enable fast, local access to shared file data without the risk of version conflicts

NO VENDOR LOCK-IN

Non-proprietary, software-based solution supports native file and object formats.

ABOUT US

Since 1993, Peer Software has developed data management solutions that address unique challenges related to data synchronization, backup, and file collaboration in multi-site (WAN) environments.
